HOMETEX
PERU

Our company is steadfast in its commitment to sustainability and the ethical treatment of animals. Our core values revolve around offering products that are not only eco-friendly but also cruelty-free. With a dedicated focus on both commercialization and manufacturing, we specialize in creating high-quality home goods crafted from natural fibers, like alpaca.

Our passion for sustainable practices and respect for animal welfare permeate every aspect of our business, ensuring that our customers receive products that align with their values while contributing to a healthier and more compassionate world.

EXPERIENCE GENUINE LUXURY

DUVETS —————

Alpaca duvets are a special, luxury-quality product made with selected alpaca fiber and organic cotton, certified in Germany, that helps you get the best sleep possible. All our duvets are filled with 100% natural alpaca fiber from Peru.

This fiber is turned into a fine sheet that perfectly fills the duvet. Organic cotton has a natural, unbleached color that makes the fabrics preserve their shine and silkiness. Our duvets are perfectly crafted by experts, who take the time to ensure that every seam is clearly defined.

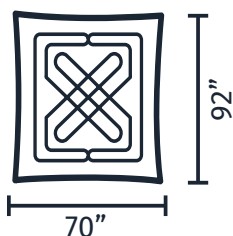

Please note that the color of the filling could vary due to corresponding variations in natural fiber.
