BLANKETS AND THROWS

ABOUT US

We believe that a good night's sleep is the key for a good start to the day. That's why we have made it our mission to manufacture duvets, pillows and mattress protectors to the highest social and environmental standards from 100% organic raw materials.

We manufacture alpaca wool duvets by hand in our factory in Peru to the highest social and environmental standards. We use alpaca wool from local communities in the Andes. And we're committed to protecting both the environment and the wellbeing of our local partners.

Together with our German partners we deliver the highest quality of organic cotton fabrics made in Germany.
